

## W 69th St Construction Noise

For over 6 months deafening excavation noise and vibration have severely negatively impacted residents of W 68 & W 69 Streets around construction at 48 & 50 W 69th St between CPW and Columbus Avenue. See recent article <https://nyti.ms/2uPR5qR>

**"People want to be heard about this and this needs to be heard. No one should go through this again"** state leaders of the W 69th Street Block Association. PLEASE JOIN US

**May 7, Tuesday Evening at 6:30 PM**

**Mount Sinai West  
1000 Tenth Ave @ 59th Street**

**Community Board 7 (CB7) monthly meeting**  
<https://www1.nyc.gov/site/manhattancb7/index.page>

W69th St states: "Residents from 68th street should be involved in this also. This is not a plan to ambush anyone on CB7. It is only an opportunity for us to speak at the public session and bring the issues regarding the project at #50 to light and tell how it has affected our lives. This is a good opportunity to bring these concerns to CB 7 so when these issues come before them again they have past community input when making decisions. We plan to have some signs and be structured in our presence. But again, it is not hostile, or a plan to ambush CB7".
